## **BLOKES YOU CAN TRUST**

95 min | documentary | MA15+

For 30 years, the Cosmic Psychos have blazed a trail of empty beer cans and

busted ear drums around the globe with their pounding punk rock songs. With appearances (and party tricks) by Eddie Vedder, Mudhoney, The Melvins, Butch Vig, Hard-Ons, L7 (to name but a few), this doco is a full frontal assault on the senses. Loud, rugged and entertaining. You'll see all of the Psychos' highs and lows; riches and rip offs; lineup changes and loss. Directed by Matt Weston.
